

DIPARTIMENTO DI MATEMATICA “F. CASORATI”  
VIA FERRATA, 1 – 27100 PAVIA

Pavia, March 8<sup>th</sup>, 2017

### **Call for an ERC postdoctoral position**

Applications are invited for the a postdoctoral position to work on the design and study of high-order *isogeometric* methods. This position is funded by the ERC Consolidator Grant “HigeoM - Highly accurate Isogeometric Method”, coordinated by Giancarlo Sangalli. For further information see the web site:

<http://www-dimat.unipv.it/sangalli/higeom/index.html>

Candidates must hold, or be working towards, a PhD degree in computational/applied mathematics or similar fields. A background in numerical methods for PDEs (e.g., finite element or isogeometric methods) or in CAGD is preferential. Net salary will depend on qualification and experience. This position will be offered for one year and can be renewed up to two years.

Informal enquiries and applications must be addressed to

`giancarlo.sangalli@unipv.it`

Candidates have to send a CV, together with the names and addresses of two referees.
